Experience

The Sonja Haynes Stone Center

Staff Assistant

September 2023 - Present (1 year 9 months)

The Stone Center is focused on encouraging and supporting the critical examination of all dimensions of African American and African diaspora cultures. As a staff assistant, my responsibilities include answering phone calls, creating graphics and flyers for advertising, and helping set up spaces for our events. I have also completed individual projects to increase efficiency and accessibility within the center. An example of this is when I created tech tutorials for the less user-friendly rooms in our building. Another example is when I aided in archiving some of our historical documents. Assist my superiors in miscellaneous tasks and guide people unfamiliar with the building.
